

Top 10 MOST REQUESTED TOYS

Throughout the year, Friends of Kids with Cancer collects and purchases toys directly from the wish lists of our pediatric cancer patients treated in St. Louis.. Here are some great ideas for your next toy drive.

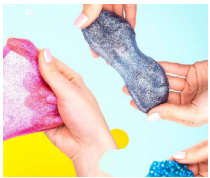

#1 LEGO

Sets like DUPLO Building Bricks, Minecraft, LEGO City, LEGO Technic, and LEGO Friends.

#6 R/C CARS

Remote control cars for all ages and genders.

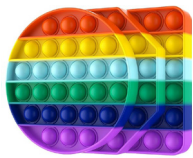

#2 SLIME

Slime, putty, and kits for making slime.

#7 POKÉMON

Anything Pokemon like cards and figures.

#3 FIDGET & SENSORY TOYS

These are small objects used for pleasant but purposeless activity with the hands.

#8 THE AVENGERS

The Avengers superhero toys of all kinds.

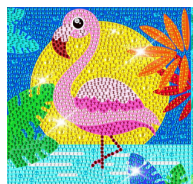

#4 PRETEND KITCHEN & FOOD

Play food, cutlery, and kitchen items to play pretend.

#9 KINETIC SAND

It's like slime, but less messy.

#5 DIAMOND ART KITS

Arts and crafts kits that can be created in hospital beds.

#10 DINOSAURS

Anything dinosaurs like Lego, models, and figures.

Find our toy drive wishlist at friendsofkids.com/wishlist

Friends of Kids with Cancer sends toys to our local treatment centers weekly and uses toys for many different programs. Toys are often given in clinics or for children in-patient as a recreational distraction, for a mood boost, special celebration, or for when children are undergoing radiation. Radiation patients receive a "prize" for every day of treatment they complete.
